Sunshine and how we can help

# headspace Sunshine is a good place to talk about your wellbeing

headspace Sunshine is somewhere for young people who need help with mental health, physical health (including sexual health), alcohol and other drugs or work and study support.

## we can help with:

### Mental health

We can help if you're:

- feeling down
- stressed or worried a lot of the time
- experiencing relationship problems or difficulties with your family or friends
- wanting to talk about sexuality or gender identity
- just not feeling yourself, or if you've noticed changes in your thoughts, feelings or behaviour.

### Physical and sexual health

headspace centres often have youth-friendly doctors and nurses who can assist you with issues related to:

- any physical health issues
- contraception and sexual health
- drug or alcohol use.

### Work, school and study

We can help if you're:

- struggling at school or work and feeling anxious or stressed
- unsure of what course you want to do
- needing a hand writing a resume
- searching for a job.

### Alcohol and other drugs

Alcohol and other drugs can affect things that matter to you, like your mental health, wellbeing or friendships. If you're having a hard time cutting down, we can support you to get things back on track.

### headspace Sunshine

At headspace Sunshine we provide a range of programs, services and support for young people aged 12 - 25 for things that might be affecting your health and wellbeing.

To find out about all the services, programs, group sessions and activities available – or to make an appointment – you can call, email or drop in.

You can also ask a friend or family member, health worker or other community service to make an appointment for you.

### Groups

We also offer groups, such as:

- Mental Health Masterclass (an ongoing skills building group)
- Music and Mood
- Connected Creativity

Head to our website [headspace.org.au/headspace-centres/sunshine/](https://headspace.org.au/headspace-centres/sunshine/) to see when these are next running.
